A1, Looking forward, for another day

When will this girl of mine

Give me the chance to say

I've got a secret for you

I love you, I love you, I love you

And please don't turn away

A2, Darkness around me, I'm all alone

Will ever dawn-light part

This fearless moan

No sleeping, the moon still shines

Her last words burn inside

As I hide

B: What can I do to prove to you

I want your loving, I want you

But I don't want to borrow for a while

And pay back tomorrow, with a smile

A3, Still thinking, of the girl I met

But when she left me there

I was upset

Turn away, run away

And don't you bother me

Anymore
